

 **PLUSWINCH™**

The REID **PLUS** WINCH is a 1100lb manual goods winch, designed to work in the same challenging environments as our Davit and Gantry range, where reliability and safety are key.

The PlusWinch is ideal for demanding applications where operators need the precision and convenience of a manual goods winch.

Plus with the new Reid material winch, you get many additional features that help increase productivity and improve ergonomics, making sure you can make light work of lifting and lowering.

Key features

- Up to 500kg* Goods capacity ensures even the most ambitious manual lifts are within the PLUS Winch capacity
- Free spool cable system enables rapid cable deployment and quicker on-site setup
- Built in cable tensioner means consistent cable layering and virtually tangle free cable wraps.
- Variable length handle enables faster lifts at lower loads and increased leverage for higher loads
- Low crank force effort of 15daN means easy lifting no matter the task
- Robust steel body and zinc plated drum to ensure longevity in demanding environments.
- Double cable clasp, ensures the cable is held securely in all situations
- Galvanized & stainless steel* cable in lengths from 10 to 20m, supports different user applications
- Driven by spur-gear mechanism incorporating a load pressure brake

*Stainless steel cable version are only available up to 400Kg capacity.
