

# **ED Electric Chain Hoists** with Hook Suspension and Mini Trollev

ED250DS

In our ED Series of electric chain hoists, we offer the user a powerful combination of benefits. A wide variety of lifting speeds. A low headroom designed to fit most applications. A unique, ergonomically designed, onehanded cylinder control that results in maximum load control. These features tied together with the convenience of single-phase power, make these hoists ideal for both commercial and industrial applications.

# Features and Benefits

### ALL MODELS

# **Double Braking System**

Provides protection with a Westonstyle mechanical load brake and a regenerative brake.

### Compact Design

Die-cast aluminum body is lightweight and low headroom to fit into tight areas. Easy to install, move and store.

#### Heavy Duty Motor

With .4 to .8 horsepower is above standard for industrial situations. The compact DC motor with rectifier for AC current reduces weight, generates less heat and maintains duty cycles.

### **High Performance Friction Clutch**

Is integrated with the load brake and designed to slip to prevent overwinding or overtravel.

### Heat Treated Gearing

Deep-groove ball and needle bearings are immersed in an oil bath resulting in smooth, quiet operation.

# **UNIQUE TO** DUAL SPEED (DS) MODEL

Speed Flexibility Low speed adjustable from 0 to 100% of maximum speed by setting screw inside the pendant.

# UNIQUE TO CYLINDER **CONTROL (DA) MODEL**

#### In-Line Handgrip

Permits one-handed operation and gives the operator a free hand to easily position the load.

### **Removable Bottom Hook**

Permits insertion of a variety of below-the-hook material handling devices.

## **High/Low Speeds**

Easy touch rocker switch above handgrip allows quick selection between low and high speed control. Finger turn knobs allow custom setting of speeds from 0-100%.

### UNIQUE TO DUAL SPEED **INFINITY (DSA) MODEL**

### Speed Adjustment

Pendant has external speed adjustment knobs to customize the high and low speeds.

# Heavy Duty Metal Hinged Cover

Protects pendant knobs from damage and prevents speed settings from shifting during operation.

# UNIQUE TO VARIABLE SINGLE SPEED (V) MODEL

### Smart Speed Technology Ability to increase factory set speed to a higher speed with a simple adjustment inside the hoist.

# **Standard Hoist Specifications**

**Capacity Range** 

125 lb.-1050 lb.

Voltage 120-1-60

**Control Voltage** 120V Direct

### **Duty Cycle\*** Varies by capacity—see charts

Ratings Hoist-IP54 Pendant-IP65

Cylinder Control - IP44

\*See page 59 for additional information.

#### Limit Switch

Prevents overwinding/overlifting Standard upper

## **Chain Falls** Single fall - 125-525 lb.

Double fall-1000-1050 lb.

# Standard Lengths

Single/Dual Speeds Lift-10' Cylinder Control Lift-6' Single/Dual Speeds Pendant Drop - 3' less than lift Cylinder Control—9' reach (approx.) (reach equals lift plus headroom) Power Supply - 16' (longer lengths available)

# Standard Pendants

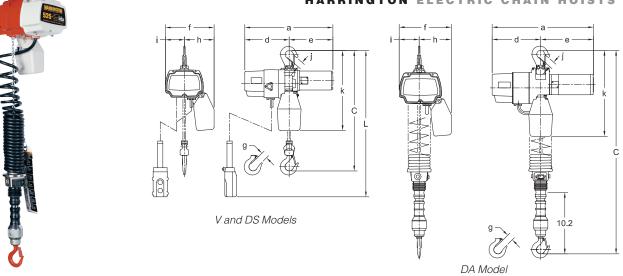

Single/Dual Speeds - 2 button Momentary contacts

### **Chain Containers** Standard Plastic

# **Mini Trolley**

Fits all ED models up to 525 lb. capacity For 1000 and 1050 lb. capacities or wider flanges use PT005 trolley
