

Proud to be used across North America on more than 20,000 trucks and counting

SAFER & MORE EFFICIENT LOAD SECUREMENT TECHNOLOGY

Speedbinders.com is changing the load binder industry with its patented Torque Drive technology. Our line of products provide considerable time saving benefits for drivers as well as enhanced safety by eliminating repetitive, straining operations. Torque Drive binders are revolutionizing load securement. By adopting the practice of using portable power drill to secure loads and pull the chain tight, you can alleviate shoulder strain, reduce injuries, and allow for easier operation and reduced operation time.

ENHANCED SAFETY

Decreased risk of injury with no lever to operate and no pinch point

MORE ERGONOMIC

Significant reduction in strain related injuries and claims due to the elimination of repetitive motions

HIGHEST TENSION

Higher tension than conventional binders with its 24:1 gear ratio and inline pull

QUICKER

Up to 3x faster tie-down and release times than traditional ratchet binders, saves time and money

EASY TO OPERATE IN TIGHT SPOTS

No need to make room for ratcheting or lever making it much easier to operate in tight spaces such as inside steel coils

UNMATCHED TENSION RETENTION

Will retain tension throughout the journey thanks to the handle acting as a reaction bar

LONGER LASTING

Sealed gearbox keeps the insides protected, and the ability to quickly run the threads inside the barrel keeps them lubricated

TAMPER-RESISTANT

Less risk of stolen tools or load as a drill is needed to loosen the binder

ANATOMY OF A SPEEDBINDER

TESTIMONIAL

"I have since driven that load more than 700 miles, and I have not had to tighten a single binder down — NOT A SINGLE BINDER WAS LOOSE THE ENTIRE TRIP.

I am completely sold on these binders and will be getting four more to make sure I have enough for all the future loads I will be pulling using my chains and Speedbinders!

Thank you for making a great product!"

PRODUCT RANGE

TD66BL

Color marking: Blue
WLL: 6,600 lb
Chain size: 5/16"-3/8"
Proof tested to: 9,900 lb
Safety factor: 3:1
Common applications:
 Light equipment transport
 Logging

TD92RL

Color marking: Red
WLL: 9,200 lb
Chain size: 3/8"-1/2"
Proof tested to: 13,800 lb
Safety factor: 3:1
Common applications:
 Equipment transport
 Heavy towing
 Steel coil transport

TD13GLHH

Color marking: Green
WLL: 13,000 lb
Chain size: 1/2"-5/8"
Proof tested to: 19,500 lb
Safety factor: 3:1
Common applications:
 Equipment transport
 Heavy hauling
 Steel coil transport

Spare drive bolts and grease zerks available
